

RONIT KUMAR BISWAS

Front-End Developer (React JS)

+919804727175 @ronitkbiswas.work@gmail.com github.com/ronitkbiswas Kolkata, India

CAREER OBJECTIVE

Frontend Developer specializing in React JS, with practical experience building scalable web apps like e-commerce platforms and dashboards. Strong in JavaScript, API integration, and creating responsive, high-performance user interfaces. Looking for an opportunity to contribute innovative solutions, enhance technical skills, and grow within a dynamic development environment.

PROJECTS

Task Manager (React JS)

01/2026

<https://taskmanager-ronitkbiswas.vercel.app/>

- Developed a Task Management App in React featuring a component-based architecture. Enabled task creation, deletion, and completion tracking using state management. Leveraged map() for dynamic rendering and props for structured component interaction.

E-commerce Cart (React JS + API)

03/2026

<https://ecommerce-app-ronitkbiswas.vercel.app/>

- Developed a responsive e-commerce app with dynamic product listing and cart system.
- Implemented add/remove cart functionality with real-time UI updates.
- Managed state using useState and useEffect for better performance.

Admin Dashboard (CRUD app)

02/2026

<https://admin-dashboard-ronitkbiswas.vercel.app/>

- Built CRUD-based admin dashboard to manage product data.
- Implemented Create, Read, Update, Delete operations using React Hooks.
- Handled component state and lifecycle efficiently.

Weather App (Vanilla JS)

12/2025

<https://ronitkbiswas.github.io/weatherApp/>

- Built a responsive weather application using JavaScript, HTML5, and CSS3, Integrated multiple APIs to fetch real-time weather data. Implemented dynamic UI updates based on user input.
- Built a responsive weather application using JavaScript, HTML, and CSS.
- Integrated real-time weather data using OpenWeatherMap API.
- Implemented dynamic search functionality for multiple cities.
- Displayed temperature, humidity, and weather conditions with live updates.
- Handled API responses and error states (invalid city, network issues).
- Designed a mobile-friendly UI for cross-device compatibility.

Portfolio (React JS)

04/2026

<https://ronitkbiswas.vercel.app/>

- Developed a responsive React portfolio SPA to showcase projects and skills.

SKILLS

HTML5	CSS3	JavaScript (ES6+)	
React JS	Responsive Web Design		
Front End Web Design		Tailwind CSS	
Typescript	Node.js	Github	Git
VS Code	REST API	Redux	
Web Development		SPA Development	

CERTIFICATIONS / COURSES

The Ultimate React Course 2025 (Udemy)

- Built real-world React applications (Task Manager, E-commerce Cart, Admin Dashboard) with reusable component architecture
- Implemented advanced state management using **useState**, **useEffect**, **Context API**, and **Redux Toolkit**
- Integrated REST APIs and handled asynchronous data fetching with proper loading/error states

The Complete JavaScript Course 2025: (Udemy)

- Strong in fundamentals + ES6+ (functions, arrays, destructuring, advanced concepts: closures, this, async JS (promises, APIs))

JavaScript Certification (freeCodeCamp)

- Experienced in DOM manipulation, event handling, and asynchronous programming

Responsive Web Design Certification (freeCodeCamp)

- Strong understanding of Semantic HTML and CSS, including modern layout, design, accessibility, and responsive web development.

EDUCATION

B.Tech

RCC Institute of Information Technology

2013 - 2017
